

Bloomin' Bucks\$ with Brent and Becky's

Need bulbs or supplies for your garden? Well, you've come to the right place!

A great way to perk up your garden when perennials are slow to bloom and you haven't gotten your annuals in, is to plant bulbs.

Whether it's early performing bulbs such as narcissus or tulips or the wide variety of later performing alliums (late May early June).

And the place to buy these bulbs is through Bloomin' Bucks at Brent and Becky's. **The garden club receives 25%** of every order placed when you use the link below and the drop down menu choosing "Falmouth Garden Club". It's not too early to place an order which will be sent in the fall at the proper time for our zone. If you need delivery before heading south for the winter you can call and request that they deliver or make a notation in the comments section which they should be able to accommodate.

Visit www.bloominbucks.com, and select our Club's registered name (which is Falmouth Garden Club) and begin your shopping. The items you choose will be sent directly to you and our Club will receive 25% of your total purchase. It's really that easy!
